

Easy to install, the self-enclosed hidden beverage holder is held in place by two screws hidden behind the faceplate on a cast stainless steel plate. The part has a stamped SST inner frame as well as a stainless steel, beverage-holding extendable arm, making it a stylish yet sturdy addition to any boat. All parts are passivated to protect from exposure to the elements.

#### Hidden Beverage Holder Features:

- ◆ Faceplate and attachment plate made from cast polished and passivated 316 SST
- ◆ Faceplate may incorporate OEM logo if desired
- ◆ Durable inner workings and frame made from fiber-filled polymers and stamped and passivated SST
